Q. HOW LONG have the five ballet positions been known and used? G. C.

A. The five traditional posi-tions in ballet, based on gravity and body mechanics, were codified about 1670-80 by Beauchamps, the first director of the Royal French Dancing Acad-emy. Ballet originated in Italy and was carried to France about 1550 when the King of France married an Italian princess.

Q. What is the largest single source of Government revenue in the United States? J. M.

A. The largest single source of Government revenue in 1947 was taxation of individual incomes, which amounted to 35 per cent of the total receipts, or \$127 per capita.

Q. When and by whom was the Lafayette Escadrille of World War I founded? How many of the fliers lost their lives? D. D.

A. The Lafayette Escadrille

A. The Lafayette Escadrille was formed in 1916 by Norman Prince of Chicago. Until its transfer to the U. S. Army in 1918, it was commanded by the late Colonel (then Captain) Georges Thenault, a French officer. In the squadron memor-ial near St. Cloud, France, 67 members who fell in combat and their French leader are bur-ied. The tomb of Lieutenant Norman Prince is in the Wash-ington Cathedral in Washing-

while taking a nap standing up. Q. Is there a periodic change in sea level? C. E. W.

A. Sea level? C. E. W.
A. Sea level is determined by careful observations made by specially prepared instruments over a period of time. The level of the sea changes constantly, and a period of 19 years is taken to constitute a full tidal cycle. Observations over this period may be taken to give accurately

Miss Fraser, a delicate brunet, then gave a restrained imitation of Jimmy Durante.

Another of her pet peeves is the way many girls let cigarets dangle from their mouths while pawing through their handbags for a lighter.
