Of course, there is some precedent for having antinoise week now. It was in this period four years ago that the biggest noise in history abated — the second World War in Europe.

If you're disillusioned about antinoise week, there is small comfort ahead. You might just as well put on your earmuffs, stuff your mouth with raisins, and crawl into the refrigerator. That's the only way to be in style next week.

swer to Question No. 1

Answer to Question No. 1
Yes, for some of the same reasons. No, for others. Numerous studies have shown both girls and boys often run away to escape quarreling parents and unhappy homes because they feel unwanted. An adult who feels he is not wanted can openly resent it, or light it through. But a child can't. He doesn't know what to do and so he runs away. However, the Travelers' Ald Society finds many girls run away from home to seek a glamourous career as models, dencers or actresses, while boys run away from sheer love of adventure.

Answer to Question No. 2

Answer to Question No. 2

Partly false, partly true. Many children are thought to be lazy when they have unsuspected ill-nesses or inferiority complexes when they have unsuspected illnesses or inferiority complexes
which they tryto conceal by
claiming inability to work or
study. Many children are also
considered dumb who are so
much brighter than their teachers and parents they can't understand them. Also, many have
reading difficulties that should
be corrected. Any child who
can't read is considered dumb
when he may actually be bright.

Answer to Question No. 3 Answer to Question No. 3

Certainly. All diseases are to ome extent inherited. Recent

studies show T. B., cancer, dip studies snow T. B., cancer, theria, scarlet fever are to degree inherited. In flu, theria, scarlet fever and ably T. B., as shown by gist Bentley Glass, the "me gist Bentley Glass, the "method" of inheritance is pretty exactly known. But nearly all can be cured. Some cancer is already curable and more types soon will be. Whether a disease is due to heredity or environment is not very important as far as curing it is concerned.

Q. Who won the 1948 Newbery Medal? C. T. T.
A. The 1948 John Newberry Medal for having written the "most distinguished contribution to American literature for children" went to Marguerite Henry for "King of the Mind." The book deals with the famous Godolphin Arabian stallion which was the ancestor of Man o' War and other celebrated race horses.

Q. What do beavers feed on? L. E. A.

A. The beaver is a strict vegetarian and does not eat fish, fawl or insect. His principal food is the bark of trees.

Q. Which President traveled the record number of miles by train during his term of office? P. C. A. Franklin D. Roosevelt's travels by train totaled 243,827 miles during his 12 years in office. William Howard Taft covered 114,559 miles by rail during one term of office.

Q. Are there any birds besides the hummingbird that are unable to walk? H. M. B.

A. According to a bird specialist of the Smithsonian Institution, technically it is not true that certain birds are unable to walk, though hummingbirds, swifts and swallows have considerable difficulty in doing so. There are a number of other birds, notably robins, sparrows and finches, that hop rather than walk.

Q. How many bank robberies occurred last year? In what year did the most take place? H. B.

H. B.

A. There were 83 bank robberies reported to the Federal Bureau of Investigation for the year 1948, It is believed that the year 1932, when 606 bank robberies were reported, was a peak year for bank robberies. This was before banks had the protection of the Federal Bureau of Investigation. Our son-in-law is so independent he will quit a job in a min-ute an move in on us. Prithee, let no bird call. Don't make a sound. This is National Noise Abatement Week.
Now is the time for all good men to creep about their tasks on little cat feet. Anybody who makes an unnecessary sound in the next seven days is certainly no 100 per cent American. Americans co-operate.

The signal for antinoise week was given by a strong, silent man in Albany — Gov. Tom E. Dewey. He didn't make a speech about it. That wouldn't have been right.

No. The Governor issued a muffled statement instead. He said excessive noises were "one of the hidden drawbacks of our civilization." And he urged the citizenry to organize noise abatement groups.

Presumably, just to set an example, the discussion meetings of such groups are conducted by semaphore.

Antinoise Matement Week has been Leo Durocher of the New York linds, known in exuberant ments as "The Lip." For days the has rivaled the clam. But what he hasn't been saying must be a mouthful. Maybe a choked mouthful. There is some uncertainty in the public mind as to how to elebrate Noise Abatement Week. This arises naturally from the widespread confusion over just what noise is — and what it isn't.

No. The Governor issued a muffled statement instead. He citizenty to organize noise abatement groups.
