The first plan instituted in the United States was that of Albert Galla-tin, who introduced it in his glassworks at New Geneva, Pa., in 1794.

Answer to Question No. 1

Our last stop on the Shinto circuit was a Kazuki theater run True as Gospel. One wise mother said, "Dick has never failed in anything he has under-taken in life. I know he won't the above mentioned Otani, an elderiy chap with el-derly ideas, who keeps produc-ing Kabuki plays because he fail in marriage." And he didn't. Numerous studies have shown that hosts of people marry hop-ing marriage will solve their problems and unhappiness. If a thinks the country ought to see them. Kabuki is an ancient art form in which a raised eyebrow is enough to denote that the marines have landed, and here again the cast is all gal or allproblems and unnappiness. If a person can't solve life's problems reasonably well marriage rarely solves them. It often makes them worse. Psychologist Terman showed the so-called "reasons" given by couples for unhappy marriages and divorces are ready the real reasons. again the cast is all-gal or all-guy. Most of these plays were written 300 years ago.

The next day I sampled several Japanese movies and, in the main, found them to be confused flickers which try to keep one instep East and the other West and often as not, wind up on the small of the back.
