New Hale Telescope's Range Given

By HASKIN

A reader can get the answer to any question of fact by writing the Long Beach Press-Telegram Information Burgan, 316 Eye 8tt. 7, E., Washington 2, D. C. Plazas enclose three (3) cents for return postage.

Q. HOW FAR into the universe

will the 200-inch telescope be able to penetrate? W. E. C.
A. The range of the Hale telescope is a billion light years, one light year being equal to almost six trillion miles. Its main use will be to collect the faint light from very distant stars.

Q. Why is a member of Congress referred to on the floor as the "Gentleman from New York," for instance, instead of by his name? J. V. A. This is the custom in all

deliberative bodies. The original purpose was to avoid any possible breach of decorum and to separate the political from the personal character of each mem-

Q. What is the chief crop

grown on the irrigated land in the west? N. N. O. A. Alfalfa hay is the predominant crop on western irrigated lands that derive water from federal reciamation systems. It is the chief item in feeding the western livestock which provides a large portion of the country's food supply. Truck crops, in-cluding winter-grown vegetables,

Yes, one of the best mental habits you will ever form. Anywords a minute is a slow reader. He is reading slower than he could do without losing understanding. By practice he can add 100 to 300 words a minute to his reading in a few weeks. Think what that would mean to his reading in a few weeks. Think what that would mean to you. One of the best methods is skimming without losing un-derstanding. Gather just the high spots and notice the pat-tern the writer uses. Every-thing you read follows a sort of
