By HASKIN

Q. HOW OLD is the light cruiser Milwaukee that was lent to the Soviet Union during

World War II? C. R. A. Built by the Todd Dry Dock and Construction Company, Tacoma, Wash., the Milwaukee was one of 10 light cruisers authorized by Act of Congress on August 29, 1916. Her keel was laid on Dec. 13, 1918 and she was launched on March 24, 1921. CL-5 is the second vessel of the U. S. Navy to bear the name Milwaukee. The first Milwaukee was placed out of commission on March 6, 1917. U. S. S. Milwaukee (CL-5) was a second of the commission on June 20, 1923. U. S. S. Milwaukee (CL-5) was commissioned on June 20, 1923. She was the first U. S. warship to enter Murmansk during the war. On April 20, 1944, while at anchor at Murmansk, the light cruiser was turned over to the Soviet Navy. The Milwaukee was returned to the United States and the Russians hauled down their flag on March 16, 1949. The ship will be scrapped at Philadelphia.

be distinguished from one of poor quality? M. R. D.
A. An authority on cranberry growing has stated that a good cranberry can be distinguished by its bounce rather than by its golor. This is a factor in souting Stories of the delivery of triplets and quadruplets fail to say what the attending physician asks for this kind of package ne disappearance of the dra-num bespeaks the need of something in the shape of an improved Geiger counter that cries, "It went that-a-way!" color. This is a factor in sorting the herries. They are dropped into wooden-flanged containers and only those that bounce over the sides are sent to fruit and Lippman sees a shameful vegetable markets. waste in the casting aside of our public men. Has anyone anything in mind for Frank (I am

A total of 361 patents was granted to the inventor, the best known of which is the air brake for trains, patented in 1869.

"Golly, Mary, here we are nearly 6 years old already and never been whistled at!"

## FROM FIVE CONTINENTS

## **Question and Answer Lady** Consulted on Many Things

By HAL BOYLE

NEW YORK. (An "How old is God's grandmother?" This is one of the 50,000 ques-

tions put last year to the American children's No. 1 answer lady—Ellen V. McLoughlin. Miss McLoughlin is editor in-chief of the Book of Knowledge,

a reference library for children that has sold 5,000,000 twenty-Q. What was the first invertion patented by George Westinghouse? How many patents did he receive? C. M. M.

A. The first Westinghouse patent was for a rotary engine. A total of 361 patents was grant.

A total of 361 patents was grant.

The first Westinghouse were service.

The first was grant.

The first Westinghouse asked his full can be as lazy as they like. We'll we won't do the homework for any child or cellege student," and the first was grant.

The first was grant.

wer service.

"If everyone asked his full quota of 100 questions we'd have been bankrupt long ago," Miss McLoughlin said.

1330

As it is she requires a staff of 35 research assistants to inform readers on how to install a farm sewage system or the best way to stuff a chipmunk.

The questions come from five continents. A surprising number are from grownups who have to give talks on current affairs and lack the energy to go

"Eut once they grow up they can be as lazy as they like. We'll help any adult in any field except medicine or law—which re-

quire a license."
One uneasy young man, engaged to be married, wrote in to ask if he really lowed the girl he was pledged to lead to the

"We told him that, statistically, nearly 100 per cent of young men about to marry feit the same way," said Miss McLough-lin. "And we assured him it was just a case of cold feet that nor-mally should disappear after the coremony."

More puzzling was the query of a worried woman frightened

where science is leading the

"When gravity lets loose, where do you go?" she wrote. Back went the glad news to her that so far gravity has kept a firm grip on everything. Except

Let's Explore Your Mind

Blog. M. S. Port. Off. @ 1949 by John F. Dille Co. Answer to Question No. 1

Yes, that is, more women than woman, in her "American Women in Modern Marriage." Women are vastly more free to express and develop their personalities. They not only have suf-frage but fill hosts of positions in government, business, educa-tion and social life and can largely choose their own husbands and direct their family life.

GQ

WE ARE IMPRESSED by a North Dakota draftee who passed the Army's mental test, and who wouldn't be? He anand who wouldn't be the answered some 60 per cent of the multiple-choice questions properly, though he can neither read nor write. His system was guessing.

His GQ, or guess quotient, is fine, whatever his IQ, or intelli-

gence quotient, proves to be. It is a refreshing approach to the question of how intelligent in-telligence tests are, and a chal-lenging one. Nobody knows telligence tests are, and a challenging one. Nobody knows how many people have flunked those things because they weekly doubted their luck and insisted on trying to get by by telling what they knew. We wouldn't want to hazard an estimate by any scientific method, but we'd guess it was plenty.—St. Louis Post Dispatch. THOUGHTS

And moreover, because the

preacher sors wise, he still taught the people knowledge; yea, he gave good heed, and sought out, and set in order many proverbs.

-Ecclesiastes 12:9. IT IS THE CALLING of great men, not so much to preach new truths, as to rescue from oblivion those old truths which it is our wisdom to remember and our weakness to forget.-Sidney Smith.

days, I still want somebody to call me Honey.
