FIWO BRANCHES of the Truman family came up for attention in political statements issued yesterday and amalgamated street, electric raillast night.

First Rolland Truman, Long Beach attorney and execu-voted 1223 to 571 to accept new tive chairman of the Young Democrats of California, Southern Division, predicted there will be a Democratic Governor Gov. Paul A. Dever. at Sacramento in 1950. The Truman name—the Presi- Concert Program dential branch -- was brought under bitter attack last night when Hugh Scott, chairman of the Republican National Committee Republican National Republican N tee, spoke before the Western States Republican Conference in Los Angeles, Scott expanded on many of the points made by Sen. Harry Cain of Washington in an earlier talk.

Rolland Truman led the Young Democrats in their successful campaign to have the delegates to the Philadelphia convention remain true to their pledge supporting the nomination of the President, his third cousin. Whether he will emerge next year as a candidate for Governor is a matter of speculation.

The younger Truman was one of the most outspoken early critics of the Wallace attack on the Democratic Party in California and, like his more famous kinsman, correctly predicted the outcome of the November election.

Truman told younger members of the Democratic Party in California and neighboring western states. He pointed out that Theodore Roosevelt started constitution.

Truman told younger members of the Democratic Party in California and neighboring that a "real opportunity" and that hears his name, that Coolidge Dam was built during the administrations of Presidents of the Democratic organization in the nation, one composed of hover's term in the White House, Here in California the loyal young Democrats, where Communists, Wallace supporters, and those opposed to the administration was responsible for the planning, Scott said.
