The advantage of reaching into worker ranks in other countries for the purpose of such cultural exchange is that in so doing we get to where people live. Brought, for example, to Defroit, Pittsburgh and the west coast, foreign workers would not merely study and learn' American industrial skills but anso rub elbows with their counterparts. Put side by side with working Americans, they would see in action the process of collective bargaining and the scope and workings of individual freedoms. After they returned home, the testimony of the foreign visitors among their own people would powerfully repudiate local and international Communist misrepresentations and false-hoods concerning the American worker's situation and point of

Hoover Commission estimate the saving to the individual taxpayer if its suggestions for economy in the Federal govern-ment were adopted? L. C. H. A. Mr. Hoover has stated that

in his opinion the recommenda-tions of the commission, it adopted, would result in an average saving in taxes of about \$100 per annum per family.

Q. What foreign university has the largest number of students?

S. C. Y.

A. The University of Paris, with an enrollment of 48,998 students at the beginning of 1948, is the largest institution of higher education abroad. 🤝

Q. When were pontoon bridges irst used in war? W. T. S. A. Homer refers to the use of such bridges in war centuries be-fore the Christian era. Darius, Cyrus. Xerxes and Alexander the Great all employed them. Caesar built a 1400-foot wooden bridge across the Rhine in 10 days.

Q. How many meetings have been held by the Council of Foreign Ministers? S. W. B. A. The present session is the sixth. Previous meetings were held in London, Paris, New York, Moscow and London.

Q. Please give some information about fungi. B. McQ.
A. Fungi are a group of plant forms ranging in size from the microscopic cells of yeasts to the giant puffballs that may weigh as much as 50 pounds. They include mildew, rusts and smuts that are pests to the farmer, and others, like penicillium notatum that are of the highest value to man. About 100,000 distinct kinds of fungi have been scientifically described. They are found everywhere in the soil, on dead and living plants, on foods, birds and

Q. What was the exact wording of Admiral Nelson's famous signal at the Battle of Trafalgar, 1805? R. I. G.

A. The correct wording was "England expects that every man will do his duty." This was established by examination of the signal logs of several of the ships that took part in the action after there had been some doubt shout the inclusion of the doubt about the inclusion of the word "that." Code numbers of the flags used for each word in-cluded the number 863, standing for the word "that."

by the theories of Clausewitz.

That was the impression gained by correspondents flown here by American Overseas Airlines on a tour of the war zones. It was confirmed by a number of Americans stationed here for the last three years.

The hardening of the political lines between east and west has brought a softening of the atti-tude between the individual American and the individual German. Even combat men who fought across this land four years ago have dropped the word "kraut" from their vocabulary.

WE ARE in an era of startling medical progress. But as medical care becomes better, it also becomes more expensive. The traditional method of paying for medical care cannot meet the health needs of today. At the same time that our knowledge of how to provide medical care is at its highest point more and more people are noint, more and more people are unable to afford it.
