A. The word "billion" first appeared in the 15th Century in reference to 10 raised to the 12th power (1,000,000,000,000), and this usage still prevails in Great Britain. By the 17th Century certain Dutch and French writers used the term to designate 10 to the power nine (1,-

Wonder what the soldiers in the Allied cemeteries would say to either of them. There is one French town above all others that symbolizes the war to hundreds of thou-

The most successful denazification program in Europe can be found just outside the village of La Cambe in Normandy. It is a German military cemetery, an epitaph to the Reich Hitter meant to last 1000 years.
