Q. Is it the custom nowadays to take the impression immediately after the teeth have been extracted and to use the dentures as soon as they are ready? W. J. W.

A. The American Dental Association says that the length of time between the extraction of teeth and the insertion of den-tures depends upon the individual case. In many instances it is now recommended that dentures be made for insertion im-mediately after the teeth are extracted. Sometimes, however. it is necessary to wait until the sockets have healed completely before artificial dentures can be used.

And that's where you'll find me every Saturday and Sunday after dinner chin in palm and evelids dinner, chin in palm and eyelids on toothpicks, yawning my way through miles of celluloid on the off-chance that I may find a film worth writing a column

about. In recent weeks, I haven't praised any of the pictures I've ooked at for the simple reason that there was nothing especial-

But last Friday night I drove up to the country with three flickety flickers and, when I came back to town Monday morning. I had that old jackpot feeling—all three had turned out to be dillies. And what made the event more eventful was the fact that each of the trio spoke with a different accent—the first English, the second French, and the third, good old-fashloned Yank. Each was loaded with nationalistic know-how and entertainment, and each, by being convincingly right in its own idiom, showed up the defects of the films I had seen earlier in the summer and kept so mourn-

fully mum about.

Let me toss them to you in the order I caught them * * *

'DEVIL IN THE FLESH'

The Legion of Decency, I understand, has condemned this story of a college-age kid who falls in love with a married woman, and I have no quarrel with this decision—as far as children and low-grade morons with this decision—as rar as children and low-grade morons are concerned. But for my money and morals, there isn't a foot of it which can't be shown to the most empathic adult. It's a love story told the way a lot of love stories happen, and its approach to the human frailities. approach to the human frailties is offhand rather than offcolor. While we're at it, may I say that I've never been able to understand why the band-wagon boys continue to crack down on French movies in which people act like people, and keep on okaying a lot of Hollywood hogwash in which ill-making innuendos are used as substitutes for good, honest lust.

No. Competent students assert if all the world (including all North Americans) had as much to eat as the peoples of prewar Europe (barely above starva-tion) the earth would support about 2,127,000,000, whereas we have 2,250,000, At the Asiatic standard the earth would sup-port about 2,831,000 far below starvation, since millions starve yearly. In many ways, this old-time comedy represents a lost art in American movie making — the production of films based on the lunacies of inspired gag men who could figure out seven hilarious happenings every time a character went through the revolving door. Yes. You can greatly improve your popularity by following the rules that make people popular. Watch what other people do. Get interested in them and show your interest. Pick carefully the groups you want to belong to and follow their leaders. Be loyal to your group. Don't try-to correct other people. Be-helpful and sympathetic. Even more important, as shown by Psychologist Merle Bonney, helpyour group with their objectives. Contribute your bit. Other fine, new rules are in our new booklet, "How You, Too, Can Be Popular."
