Tourney Teams Made 6 Bids KLAC-News, Sports. in Two Suits of Test Hand

By WILLIAM E. McKENNEY Written for NEA Service.

We all hear players say, "I never can win at bridge. I never hold any cards." Whenever I hear that remark, it brings back to memory a famous comment of the late F. Hal Sims. He said that the first lesson a beginner at con-tract should learn is to make good cards work for him and not

wreck him.

In today's hand most of the North and South pairs in a tournament arrived at a slam con-tract: Some pairs played the hand at six diamonds. One pair played it at six clubs for some unknown reason. Both six dia-monds and six clubs made.

At one table South got to sime hearts, which West promptly doubled. That was where he made his big mistake. He knew he could defeat six hearts, be-cause he had a heart trick and the ace of diamonds. He had bid

the ace of diamonus. He had but spades, but he did not have the to find the top spades in the optop of the spade suit. With the ponents' hands. Why not be constrong bidding on the part of tent when you can beat a slam North and South, he could expect contract in your own hand, and pass it?

> West doubled six hearts, Northwent to six no trump. It is true that if East had led a heart, the six no trump contract also would have been defeated. But East elected to lead his partner's suit. Declarer won the trick knocked out the ace of diamonds, and claimed 12 tricks for his contract.
