**PINWORMS MAY BE A FAMILY AFFAIR**

Fidgeting, nose-picking and a tormenting rectal itch are often tell-tale signs of Pin-Worms... only by pinworms and not by more common... first one out of every three persons examined. Entire families may be victims and not know it. To get rid of Pin-Worms, these pests must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it: First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—killing Pin-Worms quickly and easily. Don't take chances with this dangerous, highly contagious condition. As the first sign of Pin-Worms, ask your druggist for genuine Jayne's P-W Vermicide... the small, easy-to-take tablets perfected by famous Dr. D. Jayne & Son, specialists in worm remedies for over 100 years.
