MISS RAGS TO RICHES

"After 80 washings the left half of this cotton dress was worn to shreds. But the right half which had been Perma Starched after each eighth washing was still crisp and new looking."

Tests by the nation's leading independent laboratories conclusively prove Perma Starch doubles the life of cotton clothes because it does not wash out even after 8 to 15 washings. Perma Starch starches clothes in an entirely new way. Unlike ordinary starch that coats cloth to stiffen it, Perma Starch penetrates into the individual fibers of each thread. Melted under the heat of an iron it actually grasps and holds fibers in place, keeping them from being torn away by wear or by washing.

No cooking is required, simply mix with cool water. Makes ironing easy, leaves no odor. By making clothes wear so much longer, Perma Starch can save the average family \$50 to \$75 each year. One 6 1/2 pint bottle makes 1/2 to 3/4 gallon and does the work of \$2.50 worth of liquid cornstarch. At your Grocer.
