How to reduce tooth decay at no cost!

Nearly three years ago the Destal School at Northwestern University launched one of the most extensive and practical experiments in dental history. The results indicate this: Tooth decay can be reduced 50

to 60 per cent by the simple process of brushing or rinsing the teeth right after rating. So says Charles W. Freeman, D.D.S., Desnof N. U.'s dental school, in July Reader's Digest (now on sale).

Read this absorbing report. It tells how you can reduce your dental bills without any outlay—except some effort. It's one of 43: articles of lasting interest, condensed from leading magazines, current books. Get your Digest today.

East took the ace. East then re-

nake the right play in diamonds

n order to make his contract. He

"After much deliberation,

South put up the king of dia-

monds. He thought that West

was more likely to be leading

from the ace of diamonds than

from the queen. His second point was that if he had only an even

chance to guess right on this play, the play of the king (if successful) would give him an extra trick.

"When South's king of dia-monds lost to the ace, a diamond

return set the contract at once.
"South claims he had been con-

guess. North claims that if South were a real bridge player he would have known who held the

make, since he had been the dum

my and had had the chance to look at the hands of the oppo-

"Please settle a question for able to look at the hands of the us," writes a Minneapolis corre-opponents, have known which spondent. "There is no question opponent held the ace of diaabout how South should have monds?" played the hand to make his con-Yes. South should have known

tract. The only question is which opponent held the ace of whether South was the victim of diamonds - without peeking at bad luck or his own bad judg- anybody's hand.

ment.

"West opened the jack of with the king of hearts and the hearts, dummy finessed the ace of spades. If East also held the ace of diamonds, he surely would have taken some action. king. East returned a club, and over North's opening bid of one South won with the ace. West dropped the deuce of clubs, have bid one diamond, he might South next led a trump, and have bld one heart, or he might have doubled. However, he would

> Since South knew that East had actually passed, he should have realized that East almost surely did not hold the ace of diamonds. With the ace of diamonds thus located in the West hand, South's only chance was to play low on the diamond lead by East.
>
> There was one other indication

not have passed.

to add to this deduction from the bidding. After winning the first trick, East did not return a dia-mond but led a club instead. The club was not an attractive lead and East would not have led the club if he had anything better to lead. If East had held the ace of diamonds, for example, a diamond return would have seemed much more attractive to him than a club return. East's failure to return a diamond at the sec-ond trick was therefore an indication that he did not hold the "At this point, South had to ace of diamonds.
