### Too-Hot Stove Causes Fire That Kills 3 Tots

EDINBURG, Ind. (U.P.)—Three children died when fire apparently started by an overheated stove, destroyed their home on the outskirts of town Thursday, state police said.  
The victims were nine-month-old Phyllis Jean; Gerald, 2, and Dale, 3, all the children of Mr. and Mrs. Max Miller.  
The parents were visiting at a home a few doors away and did not know the fire had started. An unidentified passerby saw smoke coming from the house, opened a door to investigate and was prevented from entering by a sheet of flame.

**Waste Paper Shortage Prods Salvage Drives**  
CHICAGO — (U.P.) — Industry sources reported Thursday that a critical waste paper shortage threatens production of cartons needed to ship war supplies.  
Paper scavengers, brokers, and mills joined in running newspaper advertisements, urging householders to sell their waste paper to salvage firms.  
They said the mills have been left with a scant 15-day supply. The advertisements, sponsored by the "Midwest Consumers of Paper," urged the public to "save even Christmas wrappings."  
"Waste paper is urgently needed to make packages to keep vital supplies moving at home and overseas," the advertisements said.  
The situation recalled the scrap paper drives of World War II.
