# The Story Behind 'Mr. Roberts'

(EDITOR'S NOTE: The author of the following column was a univer-sity classmate of Tom Hergen, au-thor of "Mr. Roberts," whose death in 1943 shocked the theater and literary world. Hergen's play star-ring Henry Fonda will come to the Wisconsin Union theater in March.)

By WALLACE WIKOFF (State Journal Staff Writer) Tom Heggen was a remarkable

fellow. Those of us who went through the University of Minnesota school of journalism with him back before World War II recall him as a mystic genius with a strange sense of humor and an inner conscience that made it difficult really to

When he was found dead in his New York apartment at the peak of his fame, his old pals at school were shocked but somehow not too surprised, for Heggen always lived in a mental world of his own. He seldom revealed his troubles, frustrations, or joys, and that is not too healthy a state.

But in spite of his behavior, he was thoroughly liked. Anyone who gave the matter any thought at all recognized him as a genius who really didn't need the routing pattern of college education. www.difficult.indeed.for Heggen to at it into his strong subcon-

Heggen would frequently drift off into his dream world smack in the middle of a deadline or just when those into shape.

And suddenly, out of this fog of Heggenism would pop a terse declaration, sounding through the room, that would be a gem of witicism. His humor was droll, sometimes ribald, sometimes poetic.

On to grind out humor books reminiscent of his column on the Minnesota Daily; Hegien was snatched up by Reader's Digest for its staff when the war came, Heggen would pop a terse declaration, sounding through the room, that would be a gem of witicism. His humor was droll, sometimes poetic.

After the war Heggen looked up his old pal. Victor Cohn, now Fonda's lines and characterization.

"I don't think it's very hot," Heggen prefaced the request. Cohn looked and told him he had a real story there. The final had a real story there. The final book was little changed from the rough draft that Cohn reviewed.
