Let's Explore Your Mind

By ALBERT EDWARD WIGGAM, D. Sc.

Yes, but only if she makes an intelligent effort to change her personality instead of being proud of her personality defects. In "Modern Pattern for Marriage," Walter R. Stokes. M. D. says (paraphrased): "A neurotic wife lacks self-discipline, even more than does a neurotic husband. Her female sexuality is paralyzed by hysterical fear and she is envious of male power and prerogative She prizes show and approval and pauses at no petty mean-ness to secure it. She comes, in time, to realize all her husband feared and hated in the tyranny of women." Blunt but true.

Yes, so psychologists think. Prof. W. E. Moore conducted a course in "Wit and Humor" at the University of Florida, which seemed to improve students'

Channel 9 TV Will Force New Laws About **Public Hearings**

By JACK ADAMS

WASHINGTON. (4P) Top government attorneys say television is about to force the writing of a whole new shelf of law books. Just now, it's a wide open field.

There is plenty of opinion some of it loud, on what rights the TV camera has, or doesn' have, outside the studio. But to date, there is no federal law or the subject, and no major court has passed on any of the big questions involved.

The Kefauver Senate crime nvestigation telecasts—smash hit of the TV year-brought the whole subject into sharp focus, without offering any final an swers.

So, as matters now stand, one man's opinion is as good as an other's as to who has what rights in relation to TV and an individual under individual under in vestigation, on trial, or simply called as a witness in this type KTLA (5)-Final Edition of proceeding.

Among the many controversial

questions raised by the Kefauver hearings, this one stands out: Can a public hearing be too pub-

According to the lawyers, this one could be kicked around for years before the Supreme Court gets in the final word. It is exected that it will, someday, do just that.

About everyone agrees that when the founding fathers provided in the earliest American law for "open hearings," they had in mind a room that could hold a couple of benches so that neighbors could come in and see that justice was done.

The idea was to avoid any

form of the star chamber, whose secret sessions and arbitrary judgments had shocked 17th Cen-tury England into abolishing that kind of process.

On the other hand, these first Americans would have guffawed any suggestion of a public hearing attended by a coast-to-coast audience. They didn't live in an audience. They want a thing, age to conceive such a thing. Now that it's possible, there is the widest difference of opinion among lawyers and laymen on whether the audience of mil-lions for the Senate committee's examination of underworld char

acters was or was not a legal
