Sect Pleads for Truman, Mac

WASHINGTON, April 16. (P) About 300 Negro members of Elder Solomon Lightfoot Michaux' Church of God prayed early today in a park near the White House for divine guidance to heal the breach between President Truman and Gen. Douglas MacArthur.
The group had marched from

its church, several miles away, singing hymns as they pro-ceeded toward Lafayette Park, across the street from the White House. Blair House, where Mr. Tru-man is residing while the White

House undergoes repairs, is near by. But there was no indication Mr. Truman was aware of the demonstration, which started after midnight. Police and Secret Service

'Bleeding Boy'

now-maybe a little frailer-

and the parents of Wayne

The 7-year-old boy Saturday

came home from the hospital,

sympathetic thousands had fol-lowed his fight to live.

The boy suffers a rare blood disease similar to hemophilia, where the blood won't clot. He fell while playing and a stick he had in his mouth opened a tiny wound in his throat.

It took 41 transfusions of rare O.RH negative blood, numerous injections of an experimental blood derative, anti-

hemophilia globulin, and deli-cate surgery for him to win the

fight.

But Saturday he was just a hungry little boy. He proved it by wanting that "second piece of pie."

Answer to Question No. 1

Yes, because most women pre-fer men who are taller. A Ca-nadian anthropologist found an African tribe in which the talls had married the talls and the shorts the shorts until there were two separate types. As happened occasionally when the talls married the shorts, or vice versa, the children were betwixt and between.

Answer to Question No. 2 Yes. Several large companies are financing the Yale University Clinic for scientific studies of alcoholism where many helpful discoveries have been made. One company found that three workers out of 100 lost 22 days a year from drinking. Ten large plants found that eight out of 100 skilled workers were problem drinkers, losing time, causing accidents and endangering other employes. For literature,

write the Yale University Clinic, New Haven, Conn.

Apparently not. The electronic mathematical boys tell us time mathematical boys tell us time moves backward as well as forward. No telling, you may wake up in the middle of last year. It's a top secret, but I'm now working on a formula for putiting hindsight before foresight. Watch this column for announcement— economical family size (if you have an economical family size).
