LOOKING AND LISTENING

Rod, Gun Club Urging Fans to Plant Willows

By TOM DANSON

HOLLYWOOD. A very worthwhile nationwide campaign is being conducted by the "Rod and Gun Club of the Air," asking that sportsmen plant willow slips in an effort to conserve and beautify the nation's streams.

Being an ardent fan of both sports, hunting and fishing, the writer decided to digress from the usual "backstage" of radio and TV and try to further aid this campaign.

Listeners and fans of the "Rod and Gun Club" (KHJ, tonight at 9:30 p. m.), and readers of this column, are urged to take a bundle of willow sticks, six inches to a foot long—cut from a large tree, with them the next time they go fishing (fresh water, of course) or camping. Then, while pursuing their outdoor activities, they simply punch the sticks into the ground near the water's edge. The slips grow rapidly and readily.

If outdoor men and women carry out this plan they will greatly aid the nation in conserving its resources, and at the same time protect fishing grounds, keep the waters cool and help to cut down bank erosion.

More information on this will be given by panelists Guy Kihbee, VanCampen Heilner and Larry Koller during the "Rod and Gun Club" airing.

James MacNamara, head of KLAC radio and TV news staff, returned to the Army this week. MacNamara, a major in the United States Army, flies to Korea immediately to join Gen. James A. Van Fleet's public relations staff. MacNamara was called back into the Army at the request of Gen. Van Fleet, with whom he served in Europe from 1942 through 1945.

Let's Explore Your Mind

By ALBERT EDWARD WIGGAM, D. Sc.

2. WHAT JOB CHARACTERISTICS DO COLLEGE STUDENTS RATE HIGHEST? YOUR OPINION?

3. SHOULD YOUNG PEOPLE TRY TO TEST THEIR MENTAL ABILITIES? YOUR OPINION?

4. IS IT NORMAL FOR BOYS AND GIRLS TO HAVE "CRUSHES" ON MEMBERS OF THEIR OWN SEX?

Answer to Question No. 1
 Yes, say some of the best authorities. These "crushes" are often very intense, but they are perfectly normal. They are the first steps toward becoming emancipated from parents and family. While parents should not be alarmed, they should be very watchful and tactful to help these "crushes" grow past this stage into love of the opposite sex. Falling in love with the opposite sex is final proof that the feet of youth are on the right road to complete individuality and personal maturity.

Answer to Question No. 2
 Seniors in business administration at Miami University rated as the qualities they most desired in jobs: Chance for advancement, economic security, pay, social position, recognition by superiors, and working conditions. In other surveys, actual workers ranked "pay" from fifth to twelfth, and character of supervision first. One high school survey showed that 10 per cent wanted "the job that paid most with the least work." That's been my life-long ambition—but alas!

Answer to Question No. 3
 Not often, because many published tests have not been approved as "validity" and reliability. Tests are often mislead-

Boy Who Lost Model Plane Given Another

Roger Stearns, 13, of 5228 Dagget St., has a new model plane today, complete with a Spitfire engine, but when he flies it, he's only going to put in half a "tank" full of fuel.

The lad, who had a similar plane a few weeks ago, lost the original on its first flight after it circled up and out of sight. The K and B Manufacturing Co., Compton, read about the incident in the Press-Telegram and presented Roger with his new plane.
