1.15 MOST UNHAPPINESS DUE TO IGNORANCE? YOUR OPINION Answer to Question No. 1 One is bound to believe so after reading Dr. Evelyn Millis

Duvall's book, "Facts of Life and Love" (published by Association Press, 291 Broadway, New York 7). Most persons think that sex and sex education refer merely to "facts of life." But Dr. Duvall shows that love and facts of life go together in the great problem of teaching men and women to live happily together.

Answer to Question No. 2

Yes. Thinking is "seeing through" problems. When my dog, Major, couldn't get through the fence to chase a cat, he ran through the front yard to a neighbor's yard where he "re-membered" there was a hole. He would have caught the cat, but it did some quick thinking and jumped into my window, ran out the door and climbed a tree.

Isn't that thinking? It's limited thinking, but it's "seeing through" problems. I know perwell as Major or the cat. Answer to Question No. 3

We spend a smaller percent-age of our national income for education than does Russia. Ma-rio Pei of Columbia University says that since 1940 the labor-ing man's income has risen 140 per cent; the business man's 150 per cent; but the teachers, 25 per cent. University janitors' pay has risen 70 per cent; col-lege professors 20 per cent. Can you read this and not hang your

head?
