Answer to Question No. 1 No, not by many long years! Psychologist Ross McFarlane, Harvard University, suggests that for accuracy we speak not of a person's birthday but of his "functional age." Some persons function as well at 70 as others do at 40. Dr. Harry Benjamin, New York, has devised Tests of Functional Age (for physicians Functional Age (for physicians only). On these tests, I function eleven years younger than the average man of my age.

Answer to Question No. 2

No. Kenneth Roberts says in his inspiring novel, "Lydia Bally," paraphrased: "All great villains and little villains are consistent men-unimaginative men. They consistently believe in war; or consistently believe war should be avoided at all costs. Or they are shortsighted men who consistently believe their political party is wholly right, others wholly wrong. They are danger-ous men who consistently believe that... and so on! This column believes that inconsistent think-
