Melvin Ansneh, acting deptity defense production administrator, declared that the gravest shortage is in plate steel which is used for oil and gas pipe lines and tanks.

He testified that in the third quarter only 20,800,000 tons of steel was available to meet the total demand of 29,000,000 tons. Military needs, essential consumer goods and automobile requirements cut the remaining supply to 14,000,000 tons and the oil industry was given only two thirds of its estimated needs.
