Answer to Question No. 1 No. Neither did I until I read a magazine article by Wright Mills, Columbia University, concerning a woman who divides the names of 50 acquaintances among 10 close friends. When a civic issue arises each of her 10 friends phones the 5 persons on her list. They in turn, phone 5 more friends. Within 24 nours they have approximately 6,000 organized workers. HOLLYWOOD. Then there was the actor who rehearsed a television program for six days. Nights, he was appearing in a play. Finally the TV show went on the air.

A dog licked his face when it wasn't supposed to. He dragged it down out of camera range, and it started barking. The camera pulled back on cue and showed the actory trying to restrain the dog's barks.

Dana Andrews related the epi sode while arguing that television drama must be on film, to eliminate fluffs and flascos. The actor got \$1500 for the show, he said— but spent \$800 restoring his shat-tered nerves in a hospital.

Andrews, presently busy in "I Want You," is one of many stars who haven't appeared on televi sion. Their movie contracts won't let them. He owns a receiver, but said: "I don't look at it; the pro grams are so awful. As somebody said, it's compelling, but it's bad. Still, anybody who has eyes in his head knows that television has got to be."

"I've never gotten much for nothing; I don't see how people can expect to get top-grade entertainment in their homes for nothing.
"Producers won't have to cut

costs. They can spend even more than they do for theater pictures. Say there's a charge of \$1 per set for a show and five people see it —20 cents apiece. A major picture could gross \$1,500,000 in one night's showing."
