Four Students Cleared; WHA and WHA-FM Were Not in Home

Were Not in Home Four University of Wisconsin students, who were dismissed in Superior Court Monday from dis-orderly conduct charges, were not in the home of Mrs. W. A. Rich-ards, 1628 Madison st., who had called police reporting prowlers in her kitchen.

her kitchen. The students, Robert E. Kells. The students, Robert E. Kells. 21, Robert J. Pandl. 23, and John R. Clegg. 19, of 132 Breese ter-race, and John J. Ottusch, 23, of 309 N. Frances st., were in the al-ley at the rear of Mrs. Richards' home looking for one of their fra-ternity pledges who lived there-When police arrived, they sus-pected the students of being the prowlers Mrs. Richards had heard pected the students of being the prowlers Mrs. Richards had heard and arrested them on disorderly conduct charges. Superior Judge Roy H. Proctor dismissed the char-ges when the students denied they had been inside the house. It was reported in Monday's State Journal that the students were arrested on suspicion of sneaking into Mrs. Richards' home.

The whole thing started when the women thought they heard a mouse in a closet and decided to investigate. A moment later, the bed began to act like a robot Machiavelli —it squeaked, rumbled and, with cutning finality, plopped its head-board down tight on their shoulders. Officers worked an hour to get them out. (International Soundphoto)

Would you be interested in getting one gallon free with each tankful of gasoline you buy?

Then we can tell you this: It will certainly be worth your while to read this brief story of Buick's new Airpower carburetor.

Truth is—a skillful driver can just about double the bonus we mention, if he makes the most of what this year's ROADMASTER has to offer.

The reason you can get such a bonus traces to a pair of simple facts:

- (1) It's a mixture of gasoline and air that gives you power.
- (2) Buick engineers have come up with a four-barrel automatic carburctor that lets you use more gallons of air per gallon of fuel.

Most of the time, only two of these barrels are needed-and they feed such a thrifty mixture that you use less gasoline at 40 mph than you'd formerly use at 30.

But - when you want a quick burst of eager power - you can double the air supply as well as the gasoline feed-and come up with the highest horsepower that Buick's Fireball 8 Engine ever delivered.

Of course, any man who's buying a car as fine as a ROADMASTER wants a lot more than extra miles from a tankful of gas.

He wants the distinction of extra room, extra comfort, richer fabrics and all the other refinements that make a car truly fine.

Dial 7-2231

He wants to ride with solid security, confident poise and lordly silence.

And, while he may not admit it, he yearns for a car that's full of fun.

All this, we promise you, and more will be yours when you take the responsive wheel of a ROADMASTER.

How about doing that-soon?
