

TIP O' THE MORNING: Tom Moore's "Ladies Fair will broadcast July 3 and 4 from Fond du Lac.

SEVEN Wisconsin residents are in the cast of "The Silver Whistle," with which the Belfry Players will open their 19th season Thursday night. The company produces its shows in the Belfry Playhouse at Williams Bay.

The Badgers are Glenn Grimes and Stanley Johnson, Williams Bay; Ruth Jensen, Peg Norton, and Edgar and Myrtle Stowell, Fontana, and Edward J. Hadley, Edgerton. The Stowells are former vaudeville troupers.

Performances will be at 8:20 p. m. Thursday through Monday.

TODAY'S LAUGH: A contestant on "Walk a Mile" told Win Elliot that his wife does a lot of travelling in Europe. "I suppose that travel broadens her mind," Elliot said. "No," said the contestant, "it just lengthens her conversation.

**POSTSCRIPT:** Last Friday, The State Journal published an essay by Samuel Steinman of New York City, a 1932 alumnus of the University of Wisconsin, telling why this would be his last campus reunion year.

In Monday's mail was this note from Sam'l:

## Spread 'Too Thin,' Gen. Weyland Says

WASHINGTON-(UP)--Lt. Gen. Otto P. Weyland, Far East Air Forces commander, asserted Tuesday that America is not making adequate efforts to meet the Rus-sian challenge in the air.

He said in a message from Tok-He said in a message from Tok-yo on the second anniversary of the Koreon War that the free world's air power is spread "dan-gerously thin." Referring to his own theater, Weyland said the Reds have more jet planes than he has although his planes of all types are flying 10 times as many " daily missions.

daily missions. At the same time Adm. DeWitt C. Ramsey, president of the Air-craft Industries Association, dis-closed the United States has built 9.000 to 9,500 military planes since the Korean War started. He said that was half the number that could have been produced "under the stimulus of full production." Weyland and Ramsey made their comments in articles in "Flanes," monthly publication of the aircraft industry.

Loday's more powerful engines require a highly complex gasoline to deliver their full power. There can be as many as 1500 different chemical

> compounds in a gallon of gasoline. To select the best of these chemicals, and to arrange them properly to fulfill the needs of your car calls for the last word in refinery equipment and scientific skill.

It is Shell's manufacturing policy to make "The most powerful gasoline your car can use." Shell activates gasoline by splitting and rearranging petroleum molecules.

The result-Shell Premium-the most powerful gasoline your car can use. See the Shell Dealer in your neighborhood.
