## JACOBY ON BRIDGE

By Oswald Jacoby

When you're playing a difficult trump contract, don't be in a hurry to draw all of the trumps.

Drawing trumps is the best plan on most easy hands, but is seldom the right way to begin difficult the right way to begin difficult

In today's hand, for example, South had to leave one trump out to make his contract. The reason is easier to show than to explain. West opened the king of spades and continued the suit, South ruffing. Declarer could now afford to draw two rounds of trumps with the ace and the king, but then he had to stop.

Declarer next switched to diamonds, and East shrewdly allowed dummy's king of diamonds to win the first trick in that suit. rer continued di East won with the jack.

Now East led a third round of spades, and South was glad that he had left two trumps in the

dummy.

He could ruff the spade with dummy's low trump, ruff out the ace of diamonds, and return to dummy by leading a trump to the queen in order to take the rest of the tricks with the established

second with the Jack. He would then return a spade.

If South ruffed in dummy, he would thereby use up the last entry to dummy's diamonds.

If he ruffed in his own hand, it he ruffed in his own hand, it he ruffed he even worse since that

A bridge tender told authorities he saw a lightning bolt strike near the center of the lumberyard about 10 minutes before the blaze was gusts up to 50.

The company office and ware-house were badly damaged, with the exact loss still undertermined. A fireman and a company employee were taken to Door County Hospital with cuts and bruises sustained in fighting the fire.
