Billboard's

SPOTLIGHT

Civic Music

TIP OF THE MORNING: Don't be too optimistic about Madison's getting a television station soon. Contests for channels have tied up 60 per cent of all applications. The Billboard says some won't be resolved until May, 1953, and others won't be settled until 1955.

THE MADISON CIVIC chorus and the Madison Civic Symphony orchestra will resume rehearsals next week with Walter Heermann conducting both organizations.

The chorus will meet at 7:30 p. m. Mondays and the orchestra at 7:30 p. m. Tuesdays. Rehearsals will be in Scanlon hall of the Madison Vocational and Adult school.

Both organizations will welcome new members. No formal tryouts are conducted, and competent singers and players may enroll at any rehearsal. Letters have been sent to all former members welcoming them back.

The soloists and high lights of the 1952-53 season will be announced later this month.

The board of directors of the Madison Civic Music Assn. will meet Wednesday at the University club.

SCHOOL OF THE AIR: For the first time in its 22-year history, "The Wisconsin School of the Air" will be available to every grade school in the state when it begins its 10 programs Monday, Sept. 22.

By that time, the two newest stations of the state network, located at Highland and Brule, will be on the air. Two standard broadcasting stations, WEA and WLBL, and eight frequency modulation (FM) transmitters will carry the programs designed for in-school listening.

The day-by-day schedule, beginning Sept. 22:

Mondays—"Wisconsin Almanac," state history for grades 5-10, at 1:30 p. m.; "Afield with Ranger Mac," nature study for grades 5-8, at 9:30 a. m.

Tuesdays—"Growing Up," safety, health, and social program, for grades 1-3, at 9:30 a. m.; "Let's Draw," art course, at 1:30 p. m.

Wednesdays—"Young Experimenters," science for grades 5-8, at 9:30 a. m.; "Journeys in Music Land," Prof. E. B. Gordon's music course for grades 4-8, at 1:30 p. m.

Thursdays—"Music Time," new program with Gertrude Stillman for grades 1-3, at 9:30 a. m.; "News of the Week," for grades 5-8, at 1:30 p. m.

Fridays—"Rhythm and Games," with Mrs. Fannie Steve, for grades 1-3, at 9:30 a. m.; "Book Trails," new approach to reading for grades 3-8, at 1:30 p. m.

CONCERT: Alexander Fritta, Hungarian tenor, will give a concert at 8 p. m. Thursday, Oct. 9, in Beth El temple auditorium under auspices of the temple men's club.

Fritta was liberated by the U. S. army in 1945 and gave concerts throughout occupied Germany before coming to the United States this year.

HISTORY: Two September broadcasts made radio history. Dwight D. Eisenhower's address in Philadelphia on Sept. 4 was the first campaign speech simulcast on a nationwide basis and the first political talk carried over all stations of the combined NBC radio and television networks.

On Sept. 8, CBS radio carried the first broadcast from Luxembourg as the new capital of the European Federation of Nations, and the first direct broadcast to the U. S. from the Grand Duchy since World War II.

THE CHAMP: Hoagy Carmichael's "Stardust" is still the champion among popular songs.

In just about every poll in this department's memory, the tune has ranked No. 1 among all-time dance favorites—and this includes the choices of professional band leaders.

The latest survey was conducted by the Billboard among operators of automatic music machines, who were asked to list the "old favorites" most played on juke boxes in the past six months.

Forty-two percent of the total votes cast went to the Carmichael song. Second was "Boogie Woogie," with "Begin the Beguine" third.

According to the Billboard poll, the operators selected Eddie Fisher, Rosemary Clooney, Kay Starr, Johnnie Ray, and Patti Page as the artists most likely to come up with a top record this fall.

Balloting for the most profitable popular record for the first six months of 1952 saw Kay Starr's "Wheel of Fortune" a landslide winner. Other named include Johnnie Ray's "Cry," Leroy Anderson's "Blue Tango," Eddie Fisher's "Anytime" and Guy Mitchell's "Pittsburgh, Pennsylvania." Three different recordings of "Blue Tango," those of Leroy Anderson, Guy Lombardo, and Hugo Winterhalter were listed among the winners.

Wisconsin Firm Installs Its 750,000th Telephone

MILWAUKEE (UP)—The Wisconsin Telephone Co. announced Thursday it has installed its 750,000th telephone in the state, 70 years after it started business.

The 750,000th phone was hooked up Wednesday at the Vincent Klister farm home near Wrightstown.

J. B. Morrison, president of the utility, said it took the company 42 years to install its first 250,000 telephones and 22 more years to hit the half-million mark, but the next 250,000 telephones were installed in the six-year period from 1946 to 1952.

Surgery Seen for Siamese Twins in Illinois

CHICAGO (AP)—An attempt probably will be made this fall to separate the year old Siamese twins sons of Mr. and Mrs. Royt Brodie of East Moline, Ill.

Announcement of the anticipated effort to separate the twins was made Thursday by the Journal of the American Medical Association.

Only two such operations have ever before been attempted, the Journal stated. Both resulted in death.

Joined at Heads

The twins, Roger and Rodney Brodie, were born Sept. 16, 1951, joined together at the top of their heads. Their legs point in opposite directions.

When they were a month old, they were brought to the University of Illinois Research and Educational Hospital for observation to see if separation would be possible. They have been there ever since.

The hospital conducted extensive tests which showed the twins had a congenital heart condition that made surgery unwise when they were infants. Now, however, the AMA Journal says, their "slight heart murmurs" have not affected the functioning of the babies' hearts and the children are "in very good condition."

Operation Feasible

They were found to have separate nervous systems and separate circulatory systems. They have separate brains.

The doctors, the AMA Journal said, now have decided that an operation to separate them is feasible. Some preparatory surgery already has been completed, the article said, including plastic surgery, bone surgery and nerve surgery.

Several other preparatory operations will be necessary before final separation can be attempted, the article said.

The twins' parents live in a house trailer with their other three children, all of whom are normal.
