"The hidden burden of the gasoline taxes."

It's issuing thousands of "gas' tax dollars" and distributing them through service stations.

The dollars are printed in green on paper about the size and shape of a regular dollar bill. Added to them are red fiaps which state that gasoline taxes paid by New York State motorists amount to 29 cents on each dollar purchase.

The "gas tax dollars" bear this suggestion: "With such a tax on gasoline, why not call it Taxoline!"
