ST. I,OUIS-While the old fash-ioned country doctors knew little

medicine compared to present-day school graduates, they were effec-tive because of their humanity and

humanism, Dr. Erwin H. Acker-knecht, professor of history of medicine at the University of Wis-

consin, said in a talk here Sun-day night.

Ackerknecht spoke at a sympo-sium on premedical education as a part of the annual meeting of the

American Association for the Ad-

Medicine is an occupation in which the first thought is the cur-

ing of ills, and specialization is causing problems in the profes-sion, Ackerknecht declared,

100 kilowatts power from the

watts of power will be radiated from the 1.017-foot tower.

construction will proceed as fast as weather will permit. After the tower proper has been completed

two large transmission lines will be run up the tower. The new an-

tenna is now en route to Milwau-

kee but it cannot be put in place until tower and transmission lines

are finished. Here again the weather will be the control in de-termining the date of completion.

The addition to the WTMJ-TV transmitter building needed to house the new transmitter has been completed but the transmit-

ter will not be delivered until the latier part of February at the ear-liest. Further time will be required. before it can be put into actual use

All of the above details in making the new facilities ready for serving WTMJ-TV viewers may take until late spring of 1953 but the Journal Co. is hopeful that the date may be earlier.

The primary service area of the station extends some 50 miles from Milwanke. The new combination

Milwaukee. The new combination of 100 kilowatts from the 1,017-

foot tower will give primary service to points 80 to 85 miles and improved service to many

that station.
