"He quotes, too, even as you and I," I continued.
"He cites the definition of a critic as 'one who expresses a reasoned opinion . . , involving a judgment of its value, truth or righteousness, or an appreciation of its beauty or technique' or as 'one skilled in judging the merits of literary or artistic works.

"So?." said the Old Master.

"As for the hypnosis," I said, "that may happen but I can recall several musicians and actors whose but I can recall several musicians and actors whose names alone couldn't induce a trance. For instance, there were William Kapell and Bidu Sayao, Cornella Otis Skinner and Katharine Hepburn."

"How about the definitions?," asked my friend.

"Weil," I said, "after this I eliher have to be right, always, or not admit I was wrong, ever."

Scanning some of the letters that reached this about the column hereinbefore discussed ought to mind another question.

What has become of the fine old arts of spelling

Typoglaphical errors, maybe. They plague all of Special Program
