A FANCIFUL story about a girl who inherits a ghost opened Thursday night at West high school auditorium; the comedy, "Gramercy Ghost," is the Madison Theater Guild's last production of the 1952-53 season.

The east, directed by Al Barraclough, overcame the interest difficulties of the fantastic goings-on with skill and grace. When a spectre can be seen by several actors, things aren't so tough, but in "Gramercy Ghost" the central character is visible only to a girl and, for a few moments at a time, to other ghosts whom she can't see.

It sounds much more confusing than the smooth production reality was, for the players made each characterization clear and each situation, doomed to be earthhound until papers he had failed to deliver were recovered by the descendant of the man for whom they were intended. He was tied to the spot where he was killed, and consequently entered the life of one Nancy Willard.

The comedy, then, was about his willingness to stay on earth when he fell in love with Nancy and about her romantic difficulties with two human suitors, one of whom succeeded in slaying the short with the unintentional help of his rival.

A surprise climax added to the fun.

Lou Dorlag, as the girl, was convincing in her acceptance of the ghost's reality. Norman Michie was excellent as the spectre, giving the lost soul a very unphostly.

Henry Buslee made one of the suitors a believeable reporter, sincere under a surface sophistication. ECORD-BREAK GAS MILEAGE

for the driving **YOU** do!

This year's Chevrolet brings you the most important gain in economy in Chevrolet history. And it's the kind of everyday economy that saves you money wherever and however you drive!

TUNE IN THE DINAH SHORE SHOW ON NBC Radio-Every Monday and

Friday Evening

Inch along through heavy traffic. Roll up the miles in steady highway cruising. Long trips or short errands, byroads or boulevards, you get far more miles per gallon in this great new Chevrolet.

New high-compression power is the reason. Both the new 115-h.p. "Blue-Flame" engine in Powerglide* models - and the advanced 108-h.p. "Thrift-King" engine in gearshift models-deliver more power on less gasoline. Acceleration and hill-climbing ability are much greater, fuel consumption much lower!

This is the kind of economy that counts the most-important gasoline savings for the driving you do, together with lower over-all costs of upkeep. And along with it, you enjoy all the other advantages that only the new Chevrolet offers you. Come in and drive this car-prove it for yourself!

*Combination of 115-h.p. "Blue-Flame" engine and Powerglide automatic transmission available on "Two-Ten" and Bel Air models only.
