TIP O' THE MORNING: "Adventures of the Scarlet Pimpernel," starring Marius Goring, will return to NBC on July 8.

LEADERS IN the field of educational television will come to Madison from all over the U.S. today to take part in a seminar on the role of TV in education, H. B. McCarty, executive director of the Wisconsin State Radio council, announced Sunday.

Sessions will not be open to the public. They will close Saturday.

Seminar members include 25 selected representatives from educational institutions and agencies which have taken definite steps to explore and develop the teaching possibilities of TV.

Among the visiting consultants are **Harold Lasswell**, dean of the law school of Yale university and nationally recognized social scientist; **Edgar Dale**, educational film specialist and director of the Bureau of educational research, Ohio State university; **Prof. Donald Horton**, research specialist of the University of Chicago, and **Prof. Dale B. Harris**, audio-visual educator from the University of Minnesota.

Harry Newburn, former president of the University of Oregon and newly-named president of the Educational Television and Radio Center, will also attend.

Also attending in various capacities will be **L. H. Adolfson**, director of the university extension division; **C. Scott Fletcher**, president, Fund for Adult Education; **William W. McPeak**, Ford Foundation; **Harry J. Skornia**, executive director, National Association of Educational Broadcasters, (NAEB); **Ralph Steetle**, executive director, Joint Committee on Educational Television; **Graydon Ausmus**, president, NAEB; **S. N. Siegel**, New York City municipal broadcasting system, and others.

"Selection of Madison as the site of this first seminar is a distinct honor for Wisconsin," said McCarty. "This is to be a serious 'think session' which may very well result in basic policy measures and objectives for the guidance of educational TV development in the years ahead."

Seminar sessions will be held at Lincoln lodge, Lake and Langdon sts., where the participants and consultants will also live throughout the week. Assisting McCarty on arrangements are Harold A. Engel and William G. Harley of the staff of the state broadcasting service.

CONVENTION: Three men will represent the Madison Musician. assn. (local 166 of the AFL American Federation of Musicians) at the union's 56th annual convention in Montreal starting today. They are Charles C. Halvorsen, Benny Ehr, and Frank Fosgate.

Nearly 1,100 delegates will represent 243,875 professional musicians of the United States, Canada, Puerto Rico, and Hawaii.

PREPAREDNESS TEST: Thousands of amateur radio operators will participate Saturday and Sunday in an emergency communications preparedness test.

The American Radio Relay league, national association of amateur radiomen, is sponsoring the annual field day, during which hundreds of club groups and individual participants test their equipment and operating skills under simulated emergency conditions.

"To prove the efficiency of their stations, these amateurs will assemble and operate equipment in lonely stretches of forests, in parks, along the sea-shore and on mountain tops," the league said. "The usual silence of these desolate spots will be broken by the putt-putt of generators, the voices of amateurs calling 'CQ Field Day' and the rhythmic sounds of Morse code.

"Transmitting and receiving gear will be powered by storage batteries and gasoline - engine generators, for these are the power supplies upon which the amateur may have to depend in cases of actual emergency communications, whether it be flood, tornado or bombing attack. Field day stations will consist of a variety of installations—from single transmitters with lone operators to a dozen complete stations in one group manned by 25 or 50 operators working on shifts.

"Of ever-increasing popularity, the mobile unit will be much in evidence this year. Complete self-powered sending and receiving stations installed in cars and trucks, these mobile units have already proven themselves invaluable in dispatching information and summoning aid from disaster scenes.
