9:30 — Film Program
9:30 — Morning Movie
9:45 — Bible Time

SUNDAY AFTERNOON

12:30 — City Desk
12:30 — Annie Oakley
12:30 — Youth Takes Stand
12:30 — The Big Picture
12:30 — Meetings
12:30 — The Fuller
12:30 — Christophers
12:30 — Lamp to My Feet
12:30 — Film Program
12:30 — Morning Movie
12:30 — Bible Time

Today's Radio Highlights

Special Program
6 p.m. — The Wetbacks (WKOW); documentary on Mexican border problem; Ron Cochran, narrator.
Religion
8:30 a.m. — Capital Cathedral (WIBA); "Palm Sunday—Parade or Experience?"
9 a.m. — Bethel Lutheran (WIBA); "A Day of High Hosannas."

Discussion

12:30 p.m. — Chicago Round Table (WMAQ); "New Research on Cancer"; invitation to Learning (WBBM); Summer's "Folkways."
1:15 p.m. — Home from Abroad (WHA); "Observations in Europe."
1:30 p.m. — Youth Wants to Know (WIBA); Chairman Leonard W. Hall, Republican national committee.

Music

9 a.m. — Devotional Music (WHA); "Mozart's 'Coronation Mass.'"
12:45 p.m. — Sank County Male Chorus (WIBA); "Oh, Faithful," "Wagon Wheels," "You'll Never Walk Alone," "Oh, Man River."

Variety

7 p.m. Bing Crosby (WKOW); with sons Gary and Lindsay.

Drama

3 p.m. — World Theater (WHA); Part 2 of "Volpone."
3:30 p.m. — Proudly We Hall (WFMF); "Jungle Patrol."
4:30 p.m. — The Greatest Story (WIS); "The Betrayal and the Crucifixion."
5:30 p.m. — NBC Spring Symphony (WIBA); Milton Katims, conductor; "Eine Kleine Nachtmusik," "Nocturne" from "A Midsummer Night's Dream," "La Procession del Rocio," Schumann's fourth symphony.

Sports

1:25 p.m. — Baseball (WISC); Braves vs. Red Sox.
2:30 p.m. — Golf (WIBA); Masters Invitation tournament (also at 4:15 p.m.).

Weather for Today

NIAGARA FALLS, N. Y. — Bell Aircraft Corp. recognizes the importance of driving conditions to the many employees who drive long distances to work every day.

record," Miller said. The Fisher record is a British version of lyrics originally written in German for a Swiss musical with a title meaning "Fireworks" when translated into English.

That appears to be the issue at stake in the debate between Mitch Miller, president of Columbia Records, and Shapiro and Bernstein, publishers of the straight version of "Mein Papa," a lament moaned by Eddie Fisher to the tune of more than a 1,000,000 jingles of the cash register.

Anyways, Miller complained that Shapiro and Bernstein won't let him circulate his satirical version of the record because they think it shows too little respect for fathers.

The Fisher version of the song was issued by RCA Victor last November. Now both Victor video sets' innards and takes a and Columbia have a satirical version of the record. But the Shapiro and Bernstein approved is welcomed home at the end of the Victor version but turned with a big kiss.

Crosby's Radio and Television The Hayes Replacement Depot

(While John Crosby is on vacation, his column is continued by guest writers.)
By PETER LIND HAYES

I have spent a lot of time replacing Arthur Godfrey lately, so when I was approached, via the telephone, to replace Crosby, I assumed they were talking about Bing Crosby.

The voice on the other end said, "No. 'Bob?' I queried. 'No,' said the voice. 'Surely not Everett,' I screamed. 'No,' said the voice. 'John Crosby.' 'Oh,' I said, trying hard not to hide my disappointment. 'He's the fellow who's been negotiating radio, isn't he? Well, I'll fix his wagon. I'll write about radio.'

Four years ago, I made a rather smug statement that radio would some day be confined to news and music. Today, after four sparkling years of nighttime television, I have finally worked my way back to daytime radio.

As the replacement for Arthur Godfrey, I find myself in the enviable position of an entertainer being paid to stay off.

My wife, Mary, finally tired of the constant wrangling between me and the dog as to who was going to eat first, so she called a CBS psychiatrist named Lester Gottlieb.

When he heard that Arthur's latest replacement was about to crack up, he decided the best place to crack up would be on the CBS Radio Network. He gave us a radio show.

One glorious afternoon we all had a Madison Ave. meeting. Al Singer became the producer, Frank Musielko the director, and Dave Vern the writer.

Dr. Gottlieb decided the format should follow in the footsteps of the "Great Magoos," so we immediately set about building a family to be known as "Peter Lind Hayes and His Relatives."

Relatively speaking, Arthur kindly consented to augment our little family with a member of his own as a guest star each week.

The billing now reads, Mary Healy, girl singer; Jerry Vale, boy singer; Leslie Uggams, little girl

living? A. Their feathers are softer than those of most other birds. Their wing feathers muffle the sound almost completely. Their silent approach keeps rats, mice and other victims from hearing them as they swoop down at night.

Q. Do owls seize game with their beaks or claws? A. They have strong, sharp beaks, but make the capture with their clawed feet.

Q. What are some of the main kinds of owls? A. The great horned owl of North America, and its relative, the great eagle owl of Europe and Asia, are among the large ones. The snowy owl of the Arctic is of about equal length (24 inches).

The screech owl is only about 10 inches long, and still smaller are the pigmy and elf owls, which measure hardly six inches in length.

Today I have five questions, hear owls in the daytime? A. Owls are nocturnal, or night birds. They usually rest in the daytime (often in the hollow of a tree, or sometimes in holes on the sides of hills or banks—or in barns, church steeples or other fairly dark places.) At night they hunt for food.

Q. Why do the eyes of owls seem so queer? A. An owl has very large eyes, and these look directly at a person. Most other birds use just one eye at a time to look at an object. Perhaps you have watched a hen in the barnyard turn her head from side to side to look at you with both eyes, but only with one eye at a time.

A few other kinds of birds (but not very many) can do much the same thing as owls. A pigeon hawk is an example of a bird which can give a two-eyed glare.

Q. Why do we seldom see or hear owls in the daytime? A. Owls are nocturnal, or night birds. They usually rest in the daytime (often in the hollow of a tree, or sometimes in holes on the sides of hills or banks—or in barns, church steeples or other fairly dark places.) At night they hunt for food.

Q. What do owls eat? A. Owls eat many kinds of small furry animals, also some kinds of birds. A careful check was kept on the food of a small group of barn owls. It was found they consumed, in a few weeks, three rats, one mole, 16 bats, 19 sparrows, 930 mice, and 1,579 shrews!

Q. Why do we seldom see or hear owls in the daytime? A. Owls are nocturnal, or night birds. They usually rest in the daytime (often in the hollow of a tree, or sometimes in holes on the sides of hills or banks—or in barns, church steeples or other fairly dark places.) At night they hunt for food.

Q. Why do we seldom see or hear owls in the daytime? A. Owls are nocturnal, or night birds. They usually rest in the daytime (often in the hollow of a tree, or sometimes in holes on the sides of hills or banks—or in barns, church steeples or other fairly dark places.) At night they hunt for food.

Q. Why do we seldom see or hear owls in the daytime? A. Owls are nocturnal, or night birds. They usually rest in the daytime (often in the hollow of a tree, or sometimes in holes on the sides of hills or banks—or in barns, church steeples or other fairly dark places.) At night they hunt for food.

Q. Why do we seldom see or hear owls in the daytime? A. Owls are nocturnal, or night birds. They usually rest in the daytime (often in the hollow of a tree, or sometimes in holes on the sides of hills or banks—or in barns, church steeples or other fairly dark places.) At night they hunt for food.

Hot Debate Rages in Record Industry over 'O, Mein Papa'

By CLAIRE COX (United Press Staff Correspondent) NEW YORK—A hot debate is raging in the record industry today over how far a fellow can go in making fun of dear old dad—and the hit tune "O, Mein Papa."

It is pulling the old man's leg too hard to say he sold the insides of the family television set and pasted Zsa Zsa Gabor's picture on the screen so nobody would know the difference?

Or is it in better taste to say that you love your poppa but you like a well known brand of Bourbon named after poppa's poppa more?

That appears to be the issue at stake in the debate between Mitch Miller, president of Columbia Records, and Shapiro and Bernstein, publishers of the straight version of "Mein Papa," a lament moaned by Eddie Fisher to the tune of more than a 1,000,000 jingles of the cash register.

Anyways, Miller complained that Shapiro and Bernstein won't let him circulate his satirical version of the record because they think it shows too little respect for fathers.

The Fisher version of the song was issued by RCA Victor last November. Now both Victor video sets' innards and takes a and Columbia have a satirical version of the record. But the Shapiro and Bernstein approved is welcomed home at the end of the Victor version but turned with a big kiss.
