COFFEE PRICE RETREAT IN FEW WEEKS HINTED

NEW YORK, Aug. 16—(AP) Possible retail coffee price reductions in the next few weeks were foreseen in industry circles today as new Brazilian export regulations sent future price on green coffee downward.

Prices quoted on Santos coffee for delivery in future months dropped the maximum allowable limit of two cents a pound on the New York Coffee and Sugar Exchange, with trading virtually at a halt. It was the first trading since Brazil eased its foreign exchange regulations so exporters could obtain more cruzeiros for their United States dollars.

The bur roasters who buy the green coffee and process it for the U. S. market said it was too early to tell the final effect, but that if futures prices remained lower, the effect would be reflected in lower retail prices some weeks from now. Most roasters keep several weeks' supply on hand to maintain a steady flow through trade pipelines.

M'KINNEY CONFESSES IN L. I. BANK ROBBERY

JACKSONVILLE, Fla., Aug. 16—(AP) A confession today authenticated the FBI's solution of the $190,000 Long Island bank robbery on Aug. 18 last year.

Thomas A. Larkin, assistant U. S. Attorney, said George Patrick McKinney, 26, confessed over the weekend but still denied his wife, Sharon, 23, had anything to do with it.

She was held under $5,000 bond as an accessory after the fact. The FBI said she acted as lookout in an auto one night after the robbery as McKinney divided the loot among himself, Clifford D. Oberkirch, 31, and Ronald Martin.

Oberkirch was head bookkeeper of the bank. Martin a friend. The FBI said the three planned the robbery. McKinney was the active man in the plot, however.

The FBI said Martin and Oberkirch—both under arrest in New York—got $56,000 of the $190,000.

Hard Hearing?

Would you take a chance on a store clerk fitting your new eyeglasses?

Hearing aids must be fitted, too, though many manufacturers cheapen their instruments by leaving out fitting controls, attempting to justify it with the claim that fittings are unnecessary. Government agencies and medical clinics, however, insist on the practice of fitting hearing aids as a regular part of their service to the hard of hearing.

Sonotone Hearing Aid Consultants are trained in measurement and fitting techniques. As with glasses, your instrument is tailored to your particular needs. This removes guesswork and is your assurance of the best in better hearing — *the first time.*

STENO of the MONTH

Rose Marie Snelgrove

Stenographer, Casco Products Corp.

"Although I haven't quite completed my Speedwriting shorthand course at Butler's, I'm taking dictation and transcribing every day at Casco. My boss tells me my work is very satisfactory. I can hardly believe I've gotten such good results in such a short time . . . attending school only two nights a week. I don't hesitate to recommend Speedwriting shorthand every chance I get."

Yes, Mrs. Snelgrove is rightfully happy about her success with Speedwriting like thousands of others in business and civil service throughout the country. Taught in more than 400 schools, including several New York high schools, Speedwriting is the nation's leading and most adequate ABC shorthand system.
