CRACK AF TEAM IS SENT TO PROBE B-36 CRASHES

EL PASO, Tex., Aug. 30 — (AP) The Air Force has sent crack investigating teams from Flight Safety headquarters to help probe crashes of two giant B-36 bombers within 24 hours that left 25 dead and 16 injured.

The dollar value of the B-36 — world's largest bomber — is estimated by the Air Force at 3 1-2 million dollars.

One of the 10-engine planes, trying to land but crippled by apparent power failure, smacked into an open patch near a big housing project on the El Paso outskirts shortly before Saturday midnight (MST). It disintegrated into a fiery, exploding heap. One crewman was killed and 15 injured.

The night before, 24 crewmen died and three were critically hurt when another B-36 crashed at Rapid City, S. D., while approaching Ellsworth Air Force base for a landing in "perfect" weather. This was the worst crackup in the history of the globe-girdling Air Force giants.
