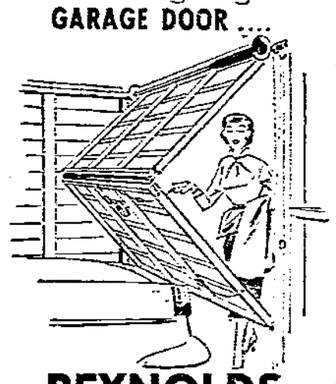
Here's Everything YOU WANT IN A GARAGE DOOR ....


- Strong torsion spring assures self-lifting action.
- Opens inward.
- Requires only 6 inches clearance behind bumper.
- Weatherstripped at sides and bottom.
- Easy to open and close in any weather.
- No overhead tracks required.

REYNOLDS Lifetime ALUMINUM GARAGE DOOR
Here's the newest idea in garage doors . . . a simple two-panel door of leather-grain embossed aluminum that lifts itself and folds compactly overhead in only six inches of head room. It's a beautifully modern door for either new construction or replacement and one of the simplest and most practical garage doors on the market today.
Simple hinge action operates without cumbersome overhead tracks as it lifts up and into the garage . . just unlatch, push and it lifts itself.
