Crosby Keeps Going

Bing Crosby's 10-day hospitalization and anticipated 30-day convalescence period resulting from an operation performed Wednesday for the correction of a kidney ailment will not prevent him from being heard without interruption on his CBS radio "Bing Crosby Show" five evenings weekly.

Mr. Crosby, a pioneer in the use of tape recording by major personalities for radio broadcast, will enjoy the advantage of his habitual practice of recording his programs rell in advance.

Before entering St. John's hosital at Santa Monica, Calif., he had tape-recorded a good amount of material in advance. He will record additional program material as his convalescence permits.
