Your Money's Worth

By Sylvia Porter

STOCK PROBE—WHY?

In a little over a fortnight, you will be treated to a Washington spectacle which hasn't been put on for over 20 years—the first full-dress Congressional probe into the stock market since the famous Pecora investigation of 1934.

You'll also watch some of the nation's top Senators and some of Wall Street's key men squirm in utmost discomfort as they pursue in public an inquiry they hope will bring them praise but which easily could boomerang and bring them censure instead.

Because, you see, this widely publicized "study" of the stock market really wasn't planned at all . . .

SYLVIA PORTER

"Just why is the Senate getting into this picture now?" I asked one of Washington's most informed men the other day. "Does Washington honestly think this stock boom is another '1929'?"

"Oh, no," he answered. "Fulbright (Senator Fulbright (D) of Arkansas, who is the new chairman of the Senate Banking Committee) was discussing possible activities of his committee and he casually mentioned the stock market as one possible area for study.

"It was just an idea and Fulbright wasn't seriously considering an investigation at all. But later that day, a reporter drew him into a discussion of the stock market boom and he said a lot more about a possible investigation than he meant to.

"The story hit the front page. Suddenly Fulbright found he was stuck with it. The chain of events began."

So now, hearings into the stock market's phenomenal upsurge in the last 16 months to all-time highs are set for Feb. 21.

Now, Robert A. Wallace, formerly legislative assistant to Illinois Senator Douglas, has been put in charge of the inquiry. Douglas has publicly said there has been "an unduly rapid upturn in stocks."

Now, officials of the Federal Reserve Board, the Treasury, the Securities & Exchange Commission, the New York Stock Exchange have been pulled (to their dismay) into the situation.

The Senators will ask, "Why the rise?"

The financiers will say among other things, "Because stock prices simply have been catching up with our years of prosperity and the demand for top-grade stocks from major investing institutions has been greater than the supply.

The Senators will ask, "Are stock prices too high?"

The financiers will retort, "High, by what standards?" and they will submit hundreds of statistics to emphasize the contrasts between 1955 and 1929.

The Senators will ask, "Is there too much buying on credit?"

The financiers will argue "no" and will offer figures to show borrowing to buy stocks is significant compared with borrowing in other parts of the economy and borrowing on stocks in past eras.

The Senators will ask, "Is speculation getting out of hand?"

The financiers will say, "Gambling in penny uranium and oil stocks is deplorable, but we're powerless to control that."

The Senators will ask, "Are new laws necessary?

The financiers will seize on this one to plead for their pet law—liberalization of the tax on stock profits.

What will come out of it cannot be foretold now but there are great dangers inherent just in the probe and the inevitable headlines.

For if the outcome is favorable to Wall Street, this might be interpreted as a sign all is well in the stock market and it might set off a new, unhealthy upspiral.

If the outcome is unfavorable to Wall Street, this might be interpreted as a sign of coming trouble and it might set off an equally unhealthy downspiral.

Either result would be no contribution to our well-being.

Now that the implications of Fulbright's off-hand chatter are being grasped, as many leaders in Washington as in Wall Street wish it was all a bad dream and they could duck the whole thing.

BY OSWALD JACOBY

When today's hand was played, East didn't distinguish himself. He should have bid four diamonds instead of letting South steal the hand at three spades.

East would have made four diamonds without the slightest difficulty; in fact, five diamonds are practically ice co'd unless South leads a heart before his ace of trumps is knocked out. It takes the heart ruff to stop five diamonds.

West opened the king of clubs against the final contract of three spades. On seeing dummy's menacin club holding, West shifted to a low diamond, and declarer's ace was forced out.

South led a low heart, and East took the ten of hearts, cashed his diamond trick and then properly returned the king of spades. It was vital to reduce dummy's ruffing power.

Declarer won with the ace of spades and proceeded to crossruff hearts and clubs. That is, he ruffed a heart in dummy, returned by ruffing a club in his hand, ruffed another heart in dummy, and led another club towards his hand.

East saw that he couldn't gain by ruffing, so he discarded a diamond, and South ruffed.

When South next led another heart, West had to follow suit with the ace and dummy ruffed with its last trump. East now made the fatal mistake of overuffing with his queen of trumps.

South could easily ruff the diamond return, lead the eight of spades to draw West's last trump, and cash the last heart as his ninth trick.

If East had refused to overruff, South would have lost the contract. With three cards in each hand, South would have needed two more tricks. He would have to lead a club from dummy and ruff with one of his two trumps.

If he then led his last trump, East would take the last two tricks. If South instead led his last heart, West would ruff; and East would make the final trick with the high trump.

Q-The bidding has been:

North	East	South	West
1 Club	Pass	1 Diamond	Pass
1 Heart	Pass	?	

You, South, hold: Spades Q-5-3, Hearts J-4-2 Diamonds A-K-9-6 Clubs K-4. What do you do?

A-Bid three diamonds. With 14 points in high cards opposite an opening bid, you must show your strength with a jump bid. You cannot quite afford to bid no-trump since you have only a partial stopper in the unbid suit.

The bidding has been:

North	East	South	West
1 Club	Pass	1 Diamond	Pass
2 Clubs	Pass	?	

You, South, hold: Spades 8-6-3, Hearts 9-7-4, Diamonds A-Q-7-6-2, Clubs 8-5. What do you do?

YUGOSLAVIA DECREES NEW TAX ON GAMBLING

BELGRADE, Yugoslavia, Jan. 30—(AP) Yugoslav gamblers felt the pinch today of new belt-tightening measures by the Tito government.

The government decreed that those who risk their dinars on the horses must pay a new tax on their winnings, the exact amount to be fixed by the republics in which they live. Other gamblers must turn over 15 per cent of their earnings. Winnings in the state lottery will be taxed 10 per cent.
