

FIRST FOR THE FOURTH

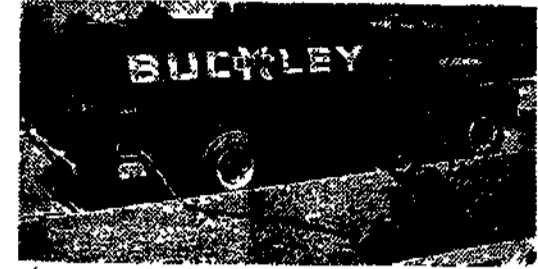

This long Fourth of July weekend means lots of outdoor activities for the whole family. Make sure children and grown-ups alike are fully protected from harsh sun glare by accurately ground and polished sunglasses.

QUESTIONS & ANSWERS

Q—When was the International Court set up as an agency of the United Nations?
A—In 1945.
Q—Is Watling Island in the Bahamas still generally accepted as the landing place of Christopher Columbus in the New World?
A—Still a matter of dispute, more recent research indicates Columbus landed, not on Watling, renamed San Salvador Island, but on Calicoe Island, farther south.

WHY SUFFER BACKACHES?

The back is made up of numerous muscles. There are other anatomical features, of course, but when backache is present it is the muscle nerves that are affected. Each muscle is actuated by nerves, and nerves lead from the spine. Chiropractic spinal adjustments are given to remove irritation on these nerves. This reaches the CAUSE of the muscular contraction that produces backaches. Chiropractic goes directly to the CAUSE, and should always be the first resort in trouble affecting the back. Telephone W-8488 now for an appointment and let us remove the CAUSE of your backaches.
