Understanding CHILDREN

By ANGELO PATRI

No other book p[ublished] so much or will so m[uch] humanity as The Ho[ly] B[ible] ren, and we are all ch[ildren] need encouragement s[ome]times of spirit some good too[l] will comfort in time of [trouble] show the way [out] difficult hours.

A thorough knowledge of the Bible adds to our culture to our intelligence in daily living. We ought to memorize its most helpful and beautiful passages and see that the children do also.

Thoughts have great power and a good thought has mighty po[wer]

Junior John Siegel of East St. Louis had only one ball carrying chance for L. of Miami against Florida State and gained only four yards. However, that was all he needed since it netted Miami a touchdown.

Soda sweetens coffeemakers

Coffee oils that cling to glass coffeemakers impair flavor. Once a week rinse in boiling soda solution (3 tbs to qt. water). Use Cow Brand Baking Soda (pure bicarbonate of soda).

Advice on Your HEALTH

By HERMAN N BUNDESEN, M.D.

Even though you don't know [you] have a cataract you can [be] sure that you don't [have] it. [Some] degree of [cloud]ing of the [lens] is present at birth. It is apt to interfere [some] with vision [as] soon [as] it [be]comes [ap]parent.

Even when a cataract does [ha]ppen it is not to a great degree an operation promises a most certain improvement. Surgical removal of a cataract [re]moves from 85 to 90 per cent of the patients.

A cataract is simply a transparent [co]ating of the [le]ns on or [in] the capsule [en]closing the lens. When [the] obstruction [be]comes [de]nse enough [to] cause [im]pairment of vision [it] is [a] cataract.

Some cataract [pro]gress [so] slowly that [the] [pa]tient [is] not [aw]are of [the] change. [Oth]ers [de]velop [ra]pidly. [Ca]taracts [are] [cl]assified [as] [im]mature, [ma]ture or [ho]rny. [Ma]ture [ca]taracts [are] [ge]nerally [re]moved [by] [ex]traction.

We believe that sudden excessive light or prolonged exposure due to uncorrected visual errors might also cause the condition.

In removing a cataract a surgeon removes the [le]ns [in]stead [of] [cu]tting [it] [ou]t. He [ha]s to wear special glasses [af]terward to make up for the lens [he] has [ta]ken out.

Can Afflict Infants

In fact one kind of cataract may be present at birth. It is apt to interfere [so] much with vision [as] to [re]tard [ge]neral development.

Images Seem Larger

You'll find [the] images seem [la]rger than those you have been used to seeing. You'll also note that only the center of the lens gives perfect vision and that everything has a blurred rim. Also your field of vision is restricted somewhat.

As the eyes refractive state changes you'll need different glasses. A new type of cataract lens service is now available which will permit you to [re]ceive a series of lenses to be used as you progress from one type to another.

Usually it will take about six weeks after the operation before your eye is stabilized and you have become adjusted to the new type lens.

CAULKING COMPOUND NOTES

For sealing in cracks and crevices around the house is pretty hard to find anything to rival [the] caulking compound. A sort of putty-like material that never becomes so hard that cracks but which can be painted to match the surroundings.

Caulking compound can be used to fill joints between [the] wood and masonry or between [the] pieces of masonry. It comes in many forms and here's how we like to tell you about [it].

First of all there is [the] caulking compound that comes in a large container. It can be applied with a caulking gun or [by] some[thing] like a putty [knife]. This is the least expensive form of caulking [but] for the [ca]ulking compound [is] sort of [a] [bo]ther to apply. [It] has a rather [ha]rd skin [on] the [to]p of the [can] and [the] [ma]terial [in] the [can] is [ap]t to be [dr]y and [cr]umbly. [Ad]ding [li]quid to [the] [ma]terial [in] the [can] is [a] [ba]d [id]ea. [The] [ca]ulking [com]pound [is] [ap]t to [be] [ha]rd to [ap]ply [in] the [ca]n. [Ca]ulking [com]pound [in] [ca]rtridges [is] [ea]sy to [ap]ply [in] the [ca]ulking [gu]n. [The] [ca]rtridges [are] [ma]de [to] [fi]t [ca]ulking [gu]ns [of] [th]e [ty]pe [th]at [ha]s [a] [ra]ther [la]rge [ba]rrel. [Th]e [ca]rtridges [ar]e [ea]sy [to] [ha]ndle [an]d [ca]n be [ke]pt [fo]r [a] [lo]ng [ti]me [if] [th]e [ca]ulking [gu]n [is] [ke]pt [cl]ean. [Th]e [ca]ulking [gu]n [is] [th]e [ea]siest [to] [ap]ply [ca]ulking [co]mpound [fr]om [a] [ca]n. [Th]e [ca]ulking [gu]n [is] [ea]sy [to] [ke]ep [cl]ean. [Th]e [ca]ulking [gu]n [is] [ea]sy [to] [ap]ply [ca]ulking [co]mpound [fr]om [a] [ca]n. [Th]e [ca]ulking [gu]n [is] [ea]sy [to] [ke]ep [cl]ean.

Something new in the field of caulking is the caulking tape. This is a caulking compound in tape form in the application for sealing in the outside corners of clapboards. [The] [ca]ulking [co]mpound [is] [ta]pe [ap]plied [to] [th]e [ou]tside [co]rners [of] [th]e [cl]apboards [an]d [is] [ca]rried [ar]ound [th]e [co]rner [to] [th]e [ne]xt [cl]apboard.

The tape on [the] [ou]tside [co]rners [is] [ke]pt [cl]ean [by] [ma]sking [it] [off] [wi]th [ma]sking [ta]pe [be]fore [ap]plying [th]e [ca]ulking [co]mpound. [Th]e [ma]sking [ta]pe [is] [re]moved [as] [so]on [as] [th]e [ca]ulking [co]mpound [is] [ap]plied.

The caulking tape is applied to the outside corners of clapboards in the same manner as the caulking compound in the caulking gun. The tape is pressed into the corner with the fingers. BULLFIGHTER, STARLET MARRIED BY CHAPLAIN

CUENCA, Spain, Oct. 16 — (AP) — Spanish bullfighter Luis Miguel Dominguin and Italian film starlet Lucia Bosse were married by the Roman Catholic church today — seven months after their civil wedding.

The ceremony took place at Dominguin's ranch about 70 miles from Madrid. Performed by the ranch chaplain, it was attended by 30 persons including relatives and close friends of the bridegroom.

Lucia Bosse wore a dark cafe gray suit and Luis Miguel a dark blue business suit.

The couple was married in a civil ceremony at Reno, Nev., March 2, 1955.
