

# WIBA to Air Talk by Queen Elizabeth

Queen Elizabeth of England will make one of her rare addresses to Americans when she thanks this country's women for their help to Great Britain today. Her talk will be aired at 2 p. m. by WIBA.

Another tie with England will be noted at 11:30 a. m. when WENR carries conversations between British children in the United States and their parents in England.

Other programs today.

## Religion

5:30 p. m.—Profiles and Previews (WBBM): with John Walsh and Marvin Mueller of "Dear Mom"; Sgt. Floyd Gates, Ft. Sheridan; others.

# Hospital's Blood Ends Match

A horribly burned little girl was rushed to a Madison hospital one day last week. Doctors immediately ordered a transfusion. A nurse rushed to a refrigerator, drew out an oddly shaped jar.

Within an hour a new quart of blood was flowing through the child's veins. The worst was over.

This is the type of unbelievably quick treatment made possible by the blood plasma bank installed in Methodist hospital nine days ago. It was in the hospital less than 24 hours before it was used, and three patients have required blood from it since that time.

The bank, only one of its kind in the city, makes it possible to gather blood at any time from willing donors, manufacture it into plasma by removing the corpuscles through a centrifugal process, and have it stored for any emergency.

### Need Blood Donations

No matching of blood is required. The plasma can be used for anyone and keeps indefinitely. Previously it was necessary to test the blood and hunt for a person having a "matching type" before a transfusion could be given.
