Long-Strike At Quarry In Hardin-co Ends

(Times News Bureau)

KENTON, Aug. 30—The three-month strike of some 90 employes of The Herzog Lime and Stone Co. at McVittys, north of here, virtually was at an end today when an agreement was signed by company officials, the president of the local union and a representative of the international AFL union with which it is affiliated.

The workers, under the agreement, gained a pay increase of three cents per hour with the beginning of work and an additional three cents on Jan. 1, 1942. The 40-hour week will replace the 48-hour schedule and time and a half now will be paid for overtime work and on Sundays and holidays, other than where the regular working calls for continuous operation of some phase of the plant work. The closed shop and check-off system of payment of union dues, sought by the strikers, were not adopted.

The settlement between the two factions was reached Friday afternoon in a conference attended by representatives of the workers, the Herzog company and William Gilbert Nowell, field examiner for the National Labor Relations Board.

Preliminary work in reconditioning the plant, shut down since June 8, will be started Tuesday, a representative of the plant said today. Picket lines of striking workers which had been maintained since the men left their jobs at midnight on June 8 were withdrawn Friday.
