

Airplane Engine Plants To Be Locale For Defense Show

Curtiss-Wright And Allison Factories Will Be "On The Air" During Broadcast Scheduled For 7 P. M. Saturday

Two great middle western airplane engine plants, each completed within the past several months, will be the locale for the "Defense of America" broadcast, heard Saturdays at 7 p. m. The story of construction of air-cooled Wright Cyclone, 14-cylinder motors will be told from the recently completed Curtiss-Wright Corp., plant at Cincinnati. From the Allison Division of General Motors Corp., at Indianapolis, will come the story of production of the Allison liquid

cooled motor.

Following this part of the program will be a broadcast from Wright Field, Dayton, where planes powered by motors made in the middle west will be demonstrated.

A stellar cast and a new play will be presented each week when the "Knickerbocker Playhouse" returns to the air for its third successive season over WEAJ Saturday, at 7 p. m. Performers will be recruited from Chicago's radio colony, and a balanced diet of all types of original dramatic productions - comedy, mystery, romance and adventure—will be provided by top-ranking writers from all over the country.

"Gloucester," Roy Shield's new tone poem of the historic New England fishing town, will be given its WJZ premiere on Saturday, at 8:30 p. m., when the composer appears as guest conductor of the Summer Symphony.

The program for his Sept. 6 appearance with the orchestra will include the "Sleeping Beauty" Suite by Tchaikowsky, the "Concertstucke for Harp and Orchestra" by Pieme, featuring Edward Vito, concert harpist, as guest soloist, and "En Saga," famous symphonic poem by Sibelius.
