

# of Victory, ize Tonight

That time is the essence of victory over the Axis will be the theme of the War Production Board's Three Thirds of the Nation program to be presented over WIBA at 9 tonight. According to the radio division of the WPB, the production will be the most interesting and unusual in the current series. It was written by Dorothea J. Lewis.

More serious than the shortage of coal, oil, and materials is the shortage of time. It will be emphasized. The WPB will point out that immediate action is necessary to win the war, that it must be done this year, and not next, or the year after that.

With but 204 days left before the end of the year, every one of the 132,000,000 Americans will have to pitch in wholeheartedly to reach the set goal of 60,000 planes, 45,000 tanks, 20,000 anti-aircraft guns and 8,000,000 tons of shipping. Every moment must be made to count if these objectives are to be attained and victory achieved.

Other attractions tonight:

## Drama
