A welter of rumors, all at odds with the government's instructions for fighting the war on the home front, convinced the "D. A.," played by Jay Jostyn, that the reports were of enemy origin. Handsome, husky, blond, blue-eyed Karl Swenson looks the glamorous, dashing sort of fellow, the average person thinks an actor is. Actually he's an intensely serious man who works hard at his occupation, worries a lot about his four young sons, and raises bees on his 81-acre farm because, strangely enough, there's money in bees. Karl plays the title role in "Lorenzo Jones," WEAF, Mondays thru Fridays, 4:10 p. m. (EWT).

NATION OFFERS 6,000,000 TONS OF SCRAP IRON

NEW YORK, Nov. 25—(AP)—

More than 6,000,000 tons of iron and steel and other scrap for manufacture into tanks, ships, planes and guns was credited today to the newspapers' united scrap metal drive by Richard W. Slocum, chairman of the campaign.

Slocum said that although the official collection ended more than a month ago, many drives still were in progress in some states. Newspapers in other areas, he added, were continuing salvage collections.

Because of these continued campaigns, he explained, it was impossible to compile complete totals although the national average already is nearly 82 pounds for every man, woman and child.

Kansans led the states in today's compilation with 158.7 pounds for every citizen, or a total of 142,874 tons.

Ohio reported 104.2 pounds per capita and a total tonnage of 360,000 tons.
