OTTAWA FIRM PLANS POTATO DEHYDRATION

(From News Bureau)

OTTAWA, April 21 — Dehydration of potatoes will be started soon at the Buckeye Sugar Co. plant here, it was announced today by officials of the company.

About 400 carloads or about 12,000 tons of potatoes, most of them shipped here from Maine where they have been stored, will be processed in the Ottawa plant, it was reported. Officials expect the work to require about 40 days.

Potatoes raised in this community and stored during the winter also will be dehydrated. The alcoholic content in the dehydrated potatoes will be removed at distilleries for use in the manufacture of war materials.

It is hoped by officials that the dehydrating program can be launched next week but the exact date was uncertain today. Key men who worked in the Ohio Sugar Co. plant which was sold to the Buckeye firm are being obtained to return to their jobs here from other plants thru the U. S. Em-
