

# Cecil B. DeMille Guests On Bing Crosby Program

Bing Crosby has invited Hollywood's ace film and radio producer, Cecil B. DeMille, to be his program guest Thursday at 9 p. m. (EWT) over WEAF. Bing's blonde singing partner Marilyn Maxwell and comedy stogie "Ukie" Sherin, will feature during the activities.

For the first time since the inception of their own radio program, Abbott and Costello will perform the routine that made them when they do their widely known base-

ball routine on the Abbott-Costello program Thursday at 10 p. m., EWT, over WEAF.

Screen Songstress Shirley Ross drops in for a chat and a song with Bob Burns, on his "Arkansas Traveler" broadcast over Station WEAF, Thursday at 7:30 p. m. In addition to Burns' comedy and bazooka-playing, the series regularly features the music (and we use the word loosely) of Spike Jones and his City Slickers.

Poor Daddy (Hanley Stafford) considers himself among the most tolerant of fathers, reserving stern disciplinary measures to the very end, but when Baby Snooks (Fanny Brice) comes up with a brand new dose of deviltry it's Snooks who gets it in the end—from a hair brush—in the pollicking riot of fun Thursday. (WEAF, 8 p. m., EWT.)

"Fabulous" Frank Morgan turns to the truth for a change but Morgan's exaggerated idea of veracity being what it is Emcee John Conte and Maestro Tours throw up their hands in disgust and distrust at his chicanery.

## KENTON BANKER MARKS 93RD YEAR AT WORK

KENTON, June 18—One of the oldest active bankers in the United States, Henry W. Gramlich, celebrated his 93rd birthday anniversary at his desk in First National bank, Kenton, June 6, after rounding out 69 years in banking.

His association with banking dates back to May 1, 1875, when he entered the old Hardin Savings bank, as director. He has been most active in banking since that date and at present is vice-president of the First National here. Gramlich who is active in banking waits on customers and often interviews prospective borrowers.

Looking back over his banking career he points out that business principles have always been the same and said that there isn't much difference in the banking business. He stated "We still loan money to an honest, industrious, sober man on his personal note."

The banker said that principal changes have been in lighting, from kerosene to electric and in
