

# Murdered Laundry Truck Driver In Strange Mystery

A missing laundry truck, a murdered driver and a valuable cuckoo clock all help to make up the strange mystery which "Mr. and Mrs. North" try to untangle in "The Norths and the Cuckoo Clock" on Wednesday at 7 p. m., Lima time, over Station WEAJ. On their way out to the laundry truck to complain to the driver about poor service, the Norths call off the complaint when they find the driver dead! Then the truck disappears . . . and so does the cuckoo clock, a valuable antique, owned by a neighbor. Before long, everything reappears, but the Norths still have a strange case on their hands.

The priceless stamp collection owned by Len Gleason, famous philatelist, will be the center of attraction when Dunninger, the Master Mentalist, demonstrates another of his amazing mental tests on Wednesday at 8 p. m., over Station WJZ. The evening's guest judges—Ted Steele, popular maestro; Emil Buichig, editor of "Readers' Scope," and Len Gleason himself — will select several stamps, and Dunninger, without seeing them, will attempt to tell from which country each stamp came, the value of each and the date of issue.

## Lloyd George Retiring To Welsh Village

LONDON, Dec. 13 — British elder statesman David Lloyd George, who will be 82 next January, has decided to spend the evening of his life in the Welsh village where he lived as a boy.

London, the House of Commons, and his fine country home at Churt in Surrey County, near London, will see very little of him from now on.
