

# Eddie Cantor Will Feud With 'Star Dust' Composer

A re-arranged song almost re-arranges Eddie Cantor's living habits when the banjo-eyed comedian does a reshuffle on "Star Dust" and then calls in guest star Hoagy Carmichael to testify Eddie wrote it, during the "Eddie Cantor Show" at 8 p. m. Lima time on Wednesday over WEA.F.

Hearts are trump on Wednesday, when "Pam Gets a Valentine," but the black ace of death soon reigns on the "Mr. and Mrs. North" thriller that evening over Station WEA.F. at 7 p. m. Pam's holiday gift, a box of candy from her hubby, is more expensive than it seems . . . so Jerry North finds to his amazement when he bites into a caramel and discovers a diamond. The sleuthsome twosome's efforts to clear up the mystery only lead to a greater puzzle as they discover that the candy store clerk, who sold Jerry the sweets, has been murdered. Co-starring in the spook-and-spoof whodunit are Alice Frost and Joseph Curtin.

Kay Kyser and his student gang from "The College of Musical Knowledge" will have reached the halfway mark in their extensive tour of the veterans' hospitals of the south and midwest when they broadcast from Camp Shelby, Miss., over WEA.F at 9 p. m.

Super-sleuth Ellery Queen, has a tasty mystery and Howard W. Blakeslee, Associated Press science editor for guest armchair detective, on an investigation of a sen-

when "Pam Gets a Valentine," but

sational scientific gimmick in his "Adventures of the Wine Machine," at 6:30 p. m. Wednesday over WABC.

## FAT WASTE "SABOTAGE"

Army cooks thruout the country are instructed to save every single drop of used fat. A mess hall poster calls wasting fat actual "sabotage" Your used fats are needed, too, for munitions and medicines. Save a tablespoon of fat a day. Turn it in for cash and extra ration points.

Post-war advances of rural electrification, with the wide use of electric water systems, should open a vast market for plumbing and heating equipment in rural areas.
