

Arsonist Hunts for Clock Mentalist on Tuesday Show

Who's got the clock when "Nick Carter, master detective" investigates a watchhouse fire which was touched off by a criminal in "The Missing Alarm Clock" to be heard at 7 p. m. Tuesday on MBS.

The evidence points to a young ex-GI as the arsonist, and it is certain that the fire was started by a criminal

jailed many times for setting off blazes in just the same fashion. At this point a third party, cloaked in the shadow of the black market, enters the picture.

Rita Avery, a luscious blonde who possesses a baggage check which is much in demand by a gang of crooks, enters the apartment of Mike (The Falcon) Waring and at the point of a gun demands that he put her in jail for the sake of protection.

Mike reassures her, sets out in search of the crooks and uncovers two baffling murders in "Murder Is Dead Wrong," the latest episode in the "Adventures of the Falcon" at 7:30 p. m. Tuesday over MBS.

One ceiling will be strictly constitutional at 8 p. m. Tuesday over NBC when Dunninger, the Master-Mentalist, presents a rare and astounding mental feat on his broadcast. Participating in his "Brainbuster" that night will be Screen Star Jinx Falkenburg, her husband, Newspaperman Tex McCrary and a third judge to be named. One word is to be selected by each from the U. S. Constitution but in reality each will have chosen a word superimposed on his mind beforehand.
