State Department Assigns City Man to Post in Iran

(State Journal Washington Bureau)

WASHINGTON—Robin E. Steussy, son of Mr. and Mrs. Edwin E. Steussy, 3847 Nakoma rd., has been transferred from the state department in Washington to Meshed, capital of Khurasan province, Iran, where he will be principal officer.

Steussy, who received a bachelor's degree from the University of Wisconsin in 1943, served three years in the army and formerly served as vice-consul in Antwerp, Belgium, and at the Budapest, Hungary, legation.

In 1949 he figured in worldwide news when Hungary asked that he be recalled by the state department from the legation at Budapest, charging that he had used diplomatic privilege to help Hungarians flee the country.

STEUSSY

College Girls Find More Jobs Open

BOSTON—(UP)—The doors of opportunity have swung open for college girls.

A survey of New England colleges revealed that employers' requests for women graduates have more than doubled since the start of the Korean war.

Science majors are in particular demand. There are, however, plenty of openings for women in almost every other field.

A girl's personality and appearance still counts more than her IQ, college placement directors agreed.

"There are times I feel men just don't want women who think," one director observed.
